REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant invention was restricted from parent application number 10/316,640 now U.S. Patent number 6,914,074. Applicants claim a method of treating or inhibiting endometriosis in a mammal in need thereof, which comprises providing to said mammal an effective amount of compound of structural formula (I). The closest prior art is applicant's own publication, which discloses the treatment of arthritis. Thus, the instant invention is neither taught nor anticipated by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
